

Healthcare

brainBox offers a one of a kind complete medical solutions package, utilizing our custom web-based software eMedSuite™. eMedSuite is a HIPAA compliant package that offers a medical transcription interface with e-Signatures, electronic medical record (EMR) storage, and a medical billing module.

brainBox offers 4 to 24 hour turnaround time for your medical transcription needs. Use our convenient toll free number, a digital voice recorder, or a PDA to dictate your report. eMedSuite provides the live status of the transcription process, along with detailed daily line counts. After transcription is complete, you can view your report securely online. Sign off on the reports electronically using eMedSuite's e-Signature feature. There is no need to walk down to the medical records department to sign reports anymore. Sign off electronically anywhere, anytime!

brainBox also provides the latest state-of-the-art web-based medical billing solutions. eMedSuite enables us to work with physicians' practices in a collaborative manner, where duplication of work is totally eliminated from the process. This enables our customers to receive payments faster and in a more cost-effective manner. eMedSuite creates a transparent information flow and enables customers to have real-time access to their account information such as claim submissions, payment postings, aging analysis, and more.

State-of-the-industry transition methodology that has resulted in over 95% of projects being transitioned on time.

Transcription Solution
